

Perlan

Aesthetic Dental Care | Implants | Oral Surgery | Periodontics | Prosthodontics

Specialist Dental Centre

How can I be referred?

Your dentist can refer you - you can print a form on our website for them to use.
Or, you can refer yourself, many of our patients have been recommended by their friends! Remember, your normal dentist will continue to provide your general dental care.

Opening Hours

Mon - Fri 9.00am - 5.30pm

We have an on-call service for out of hours cover for all our patients.

We have a car park and full disabled access.

We are a short walk from Eastbourne Station.

Hartfield Road | Eastbourne BN21 2AL

Telephone: 01323 432190 | Facsimilie: 01323 432193

E-Mail: care@perlan.co.uk | Website: www.perlan.co.uk

Specialist Dental Centre

Welcome...

to our award winning Specialist Dental Centre

More than a great smile

A healthy smile is about more than just looking great, it's about a complete feeling of wellbeing.

Perlan Specialist Dental Centre can help you achieve the confidence and renewed self esteem you are searching for, by providing high quality dentistry from our team of experts, all of whom are Specialists in their field.

Our advanced dental services are delivered in a state-of-the-art, multidisciplinary clinic, beautifully furnished and featuring modern dentistry's most up-to-date equipment. All of which enables our highly qualified team to exactly meet your clinical and cosmetic needs.

"I can't thank you enough for all your care and consideration throughout my dental treatment. The difference in my life has been dramatic and has really added to my confidence."

Why see a Specialist?

If you went to your doctor with a problem that required special knowledge or skills, they would refer you to a Consultant or "Specialist". We are similarly trained Specialists in one or more of the Dental Specialities and can offer you the benefit of our in-depth knowledge, skills and experience for more complex dental treatments.

A Specialist has to complete a University, Hospital based, full-time training programme that can take over five years to complete. As highly qualified experts in their field Specialists are registered as such with the General Dental Council.

Before

After

"...it was such a relaxed and friendly process and I had as much time as I needed. This really helped"

Who are our Specialists?

Our highly skilled Specialists are actively involved in research and teaching and offer experience and expertise. Their CV's and work can be viewed at www.perlan.co.uk

When might you need to see a Specialist?

Do your gums bleed?

Bleeding gums signify gum disease! Our Specialist Periodontist treats gum disease, corrects unsightly gum conditions to improve "gummy" smiles. They can also use advanced techniques to regenerate receding bone and gum around the teeth.

Are you considering dental implants?

Our Specialists are experts in this field and among the most experienced in Europe. However, there are many facts that patients should be aware of before embarking on implant treatment and we ensure all aspects are carefully considered before making a recommendation. This is why we have a proven success rate of 98%-99% over more than 18 years.

"Many thanks for your dedication... my new teeth have given me back my confidence again!"

Looking for cosmetic dentistry?

Our Specialist Prosthodontists are highly experienced in dentures, veneers, crowns, bridges and implants. Their specialist knowledge is essential in creating our award winning "Smile Makeovers".

Had root filling problems?

Our Specialist Endodontist is an expert in this field. Using the most proven techniques and the best equipment, including a state-of-the-art microscope, they can make "root-canal" treatment successful even when it has not worked before.

Need a Hygienist?

Regular hygiene treatment is an essential part of preventive care and routine maintenance. If your practice does not have a hygienist, your dentist can refer you to our hygienist!

Nervous?

We also have Consultant Anaesthetists who undertake sedation services for nervous patients or complex treatment. In-patient facilities at a nearby private hospital are available if required. We are AXA-PPP accredited.

All patients receive a written treatment plan and estimate explaining the costs and time scale before proceeding with treatment.

By working as a team and involving a highly-qualified Specialist in every aspect of your treatment, you receive the best possible care that results in a smile you can be proud of.
